

Thank you  
**NOTE**

I am Tammy, 17 years old and I am taking my first year of physical therapy. I live in the community of Cedro Galán. I want to express my gratitude to Wisconsin/Nicaragua Partners for donating me some mats, a ball and other items used for rehabilitation therapies. All items will be very helpful in carrying out my practices strengthening my theoretical knowledge.

I hope to continue counting on your support, my dreams are to finish my degree and specialize in pediatric rehabilitation to be able to serve my community. In this community all children require early stimulation, general care and more specialized care.

God bless you always and thank you for being a great supporter and motivation to fulfill my dreams.
